## **COVID-19 Update (CA Only)— March 22**

### **Consolidating 6 Clinical Facilities in Southern California's Orange County**

We are at a critical moment in our fight against COVID-19. The situation is rapidly evolving, and we are doing everything we can to keep our members, staff and communities as safe as possible. By temporarily consolidating these 6 smaller facilities, we can help to support a potential surge in the number of people who need of hospitalization, meet the critical need to conserve Personal Protective Equipment (PPE), guard against potential staffing shortages, and limit exposure to the virus for both members and employees.

Members with appointment and prescriptions (pharmacy needs) at these facilities have been contacted.
